

From: Dr. Pradeep Kumar Dabla – Chair TF-YS

Date: September 15th, 2014

Ref: Call for Nominations - Corresponding Members for the
Task Force Young Scientists (TF-YS)

TF-YS

To: IFCC National Representatives of the Full/Affiliate Member Societies IFCC Corporate Members Representatives

IFCC Task Force for Young Scientists (TF-YS)

Chair

Dr. Pradeep KUMAR DABLA
Assistant Professor & Head
Department of Biochemistry
Chacha Nehru Bal Chikitsalya
Pediatric Superspeciality Hospital
Associated to MAMC
Geeta Colony, Delhi-110031
India
E-mail: pradeep_dabla@yahoo.com

Members

Dr. Guilaine BOURSIER
Department of Clinical Biochemistry
CHU Montpellier
France
E-mail: guilaineboursier@yahoo.fr

Dr. Belen IMPERIALE
Microbiology Unit
Dr. Cetrangolo Hospital
Laboratory of TB Control Program of
Buenos Aires Province
Argentina
E-mail: belen.imperiale@conicet.gov.ar

Dr. Danni LI
Assistant Professor
Director of Clinical Chemistry
University of Minnesota Medical Center
Fairview
Department of Lab Medicine and
Pathology, MMC 609
Minneapolis, MN 55455
USA
E-mail: dannili@umn.edu

Dr. Omolara Olutosin POPOOLA
P.M.B 5116, Chemical Pathology
Department
University College Hospital
Ibadan
Nigeria
E-mail: larrylabs@yahoo.co.uk

Dr. Miljan SAVKOVIC
Center for Medical Biochemistry
Clinical Center of Serbia
11000 Belgrade
Serbia
E-mail: miljansavkovic@yahoo.com

Consultant

Dr. Damien GROUSON
Cliniques Universitaires Saint Luc
14 Clos Saint Trojan
1950 Kraainem
Belgium
E-mail: gruson_damien@yahoo.fr

About the IFCC-TFYS

International Federation of Clinical Chemistry & Laboratory Medicine (IFCC) has assembled Task Force for Young Scientists (TF-YS) in 2010. The aim of TF-YS is to ensure that young scientists make a significant and growing contribution to the activities of IFCC and other National programmes. This is to promote the essential contribution of laboratory medicine to the healthcare. Thus, IFCC TF-YS is devoted to prepare young scientists with ongoing changes in laboratory medicine and healthcare practices. The specific objectives were identified as Networking, Training, Participation & Multidisciplinary exchanges of different fields & different ideas. To fulfil the objectives IFCC TF-YS has organised Workshops in different Congresses of IFCC & Member Societies to learn perspectives & principles of Laboratory Management & Leadership. For more information, kindly visit the website:

<http://www.ifcc.org/executive-board-and-council/eb-task-forces/task-force-for-young-scientists/>

Terms of IFCC-TFYS

For the purposes of definition a young scientist is a medical or science graduate working or training in laboratory medicine. He/she will normally be aged less than 40 years at the time of appointment to work with TF-YS. The term of office of any young scientist involved with TF-YS is three years with renewal for a maximum of one further three year term of office.

Call for Nomination

All IFCC Full Members and Corporate Members are invited to nominate young scientists to serve as corresponding members of TF-YS. A corresponding member can attend all meetings of the Task Force but is not supported financially by IFCC to do so. Corresponding members also receive all documentations regarding the activities of the Committee and can offer opinions and comments. Often, corresponding members also undertake specific tasks within the Committee.

Objectives for Nomination

All the nominated members and societies are encouraged to form National Affinity Groups who can work closely and participate in the activities of IFCC TF-YS.

Dr Pradeep Kumar Dabla
Chair IFCC TF-YS
